Ashley Elizabeth Best

More than a decade ago, Eric Winter was in the role of Poet Laureate of Cobourg and initiated an annual event called "The Young Poets" which has always been one of the most popular poetry readings of the year. For the first time, we have arranged for 4 young poets to return so each can give a **full Reading**. These four grew up here, started composing poetry here, then went off to University, to pursue life in the work-world, etc. Our audience will be able to trace the arc created as their talent develops from teens starting in the craft to young adults continuing its practice.

Open to the public - Free admission - Refreshments available
